

Smartwater

Making your mark on crime

SMARTER THAN YOUR AVERAGE WATER

Having your home burgled is a distressing and stressful experience. But you can hit back with the help of SmartWater - the invisible weapon in the fight against burglary. Residents who use this revolutionary property marking system to mark their possessions are five times less likely to become a victim of burglary. Evidence from across the country speaks volumes – statistics have shown that SmartWater has reduced burglary by up to 84 per cent. SmartWater acts as a “forensic fingerprint,” which links owners with their property and criminals to the crime scene. It gives you the peace of mind that your most cherished goods are discreetly protected.

- A proven deterrent to criminals
- Royal award winning forensic security systems
- Links criminals to the crime scene and property to its owner
- Maintains a 100% record when used as evidence in court
- You are five times less likely to be burgled if you use SMARTWATER

AS EASY SOLUTION

A highly effective deterrent in combating crime, SmartWater works by coding household contents and personal belongings, which guarantees that stolen property can not only be identified as stolen but it can also be returned to its rightful owner. This clever solution boasts a DNA – like chemical code, which has been created exclusively for your home. Although SmartWater is invisible to the naked eye, it glows under ultra violet light to scan recovered goods and track down your unique SmartWater code which is recorded on a National Security Register. Just like DNA, all it takes is a tiny speck of SmartWater to provide positive identification of property.

HERE ARE JUST A FEW OF THE ITEMS THAT CAN BE MARKED WITH SMARTWATER

- Audio/ visual equipment
- Bikes
- Cameras
- Fishing tackle
- Garden Tools
- Golf Clubs
- Jewellery
- Mobile Phones
- Power Tools

More robust than DNA-based products, Smartwater is virtually impossible to remove completely, and presents a real problem for the criminal. Smartwater can conclusively prove ownership of an item and maintains a 100% conviction rate when used as evidence in court – that’s why the Police use it. By using Smartwater to protect your valuables, you are sending out a powerful warning to any thieves and burglars operating in your area.

Smartwater is available to **Milton Keynes Neighbourhood Watch members and co-ordinators** at a special discounted price. Register your details or see your local scheme co-ordinator - TODAY!
